

Biden Set to Mandate COVID-19 Vaccines for Military as Soon as September

by [I. L. T. Q. G. X.](#) July 5, 2021

The U.S. military is preparing to mandate COVID-19 vaccinations for all personnel as soon as September 1, according to a report in the *Army Times*. The military newspaper first reported the expected mandate on Friday, before the long holiday weekend.

The mandate for servicemembers to receive the COVID-19 vaccine is dependent upon the experimental vaccines receiving full approval by the Food and Drug Administration (FDA), which is expected in September.

The vaccine mandate is hidden in an update to HQDA EXORD 225-21, COVID-19 Steady State Operations:

“Commanders will continue COVID-19 vaccination operations and prepare for a directive to mandate COVID-19 vaccination for service members [on or around] 01 September 2021, pending full FDA licensure,” the update said. “Commands will be prepared to provide a back-brief on service member vaccination status and way ahead for completion once the vaccine is mandated.”

An EXORD is a directive that can only come from the president via the secretary of state. So, this is Joe Biden’s doing despite how the mainstream media may try to spin it.

The possible mandate for U.S. servicemembers to receive the experimental vaccines comes just days after a JAMA Network cardiology [study](#) showed that 23 male servicemembers (22 of them previously healthy) were diagnosed with myocarditis, an inflammation of the heart, within days of receiving the second dose of a vaccine with mRNA technology.

That military study comes on the heels of an Israeli study suggesting a “probable link between receiving the second dose of the (Pfizer) vaccine and the appearance of myocarditis among men aged 16-30.” The FDA and the CDC in America also [examined](#) a link between mRNA vaccines and heart inflammation in an “emergency meeting” last month, but concluded that the risk was small so there was no need to stop issuing the vaccine.

And now the mRNA vaccines are considered so safe for use that they intend to mandate them for young, healthy servicemen — the exact type of people who are at little to no risk from the virus itself but who are at the most risk from the side effects of the vaccine.

News of the possible mandate is not being well received by some members of the military. Congressman Thomas Massie (R-KY) [tweeted](#) on July 3 that some have told him they intend to resign from the military rather than be forced to take the experimental vaccines.

“I’ve been contacted by members of our voluntary military who say they will quit if the COVID vaccine is mandated,” Massie wrote.

The congressman is looking to block any vaccine mandates for the military with legislation.

“I introduced HR 3860 to prohibit any mandatory requirement that a member of the Armed Forces receive a vaccination against COVID-19,” Massie said. “It now has 24 sponsors.”

Unfortunately, for Massie and members of the military who don’t wish to be vaccinated, the sponsor list includes no Democrats thus far making it unlikely to get a fair hearing — much less a vote — in a House of Representatives controlled by Nancy Pelosi.

Back in February it was reported that close to one-third of military members wished to [opt out of the vaccine](#).

The issue of forced vaccinations for military personnel has reached into the military academies as well. Last month it was reported approximately three dozen of the 4,500 members of the U.S. Military Academy at West Point were being singled out by the

administration and bullied by peers for not receiving the COVID-19 vaccine.

On Fox News' *Hannity*, host Sean Hannity suggested that cadets were "being subjected to punitive COVID restrictions, harassment, coercion from West Point leadership and even from their fellow cadets."

On Hannity's show, cadets claimed that they were ostracized for not receiving the vaccine, even if they had experienced COVID-19 and had built up antibodies that way. Unvaccinated cadets reported that they were called "diseased" and "dirty" and punished for violating mask-wearing and social distancing rules even after New York State, where West Point is located, lifted such restrictions.

So it seems the vaccine situation in the military is much the same as in civilian life with the added caveat that it seems President Biden believes he can force servicemembers into that risky decision. First, if a person decides not to get the experimental vaccine he or she is bullied and shamed into submission like those cadets at West Point.

But Joe Biden believes that he can simply order members of the military to take a risky, unproven vaccine if it's for some nebulous "greater good."

It would be interesting to see what would happen if the reported one-third of the military who wished to opt out of vaccination simply decided not to take the shot. Would they be forced to take it at gunpoint?

What is the total number of people serving in the U.S. armed forces, including reserve, etc? Somewhere around 5 million plus (just under 1.4 million active duty). Out of that total how many deaths were "covid" related over the last two years, 25, 50? That's about 0.000025 to 0.00005%. This communist administration wants to kill off the U.S. military, literally. HR 3860 should include the entire population of the country not just it's military. And quit calling it a vaccine because it's anything but that.

The_Devilbat → Buster000 • 2 hours ago

The plan is to literally kill every member of the military and allow China to simply walk in and take us over without a fight. Go to Duckduckgo (not Google) and search for:

"French virologist Luc Montagnier everyone vaccinated for covid will die."

Luc Montagnier was awarded the Nobel Peace Prize for discovering the HIV AIDS virus. He is one of the most famous scientists in the world.

Right click on their user name, open in new tab... then look for the three blue dots next to their name... one is send a report, the other is to block. Send a report first, then block them.

Don't let them get under your skin, they just desperate Leftist females trying to earn a living on their knees with their mouths open like an NFL player. Or, they're sad sack CIA goons trying to irritate patriots. Ignore them.

The problem is they can start a new Email account and be back in minutes. Blocking them is the only option. Make the prostitutes work for their money.

You're more right than you realize Enoch, just like they said they would "We will 'assist' Americans with socialism until one day they wake up and discover they're finally communists". Look around all you so called Americans.....at your political leaders, teachers, unions, certain military leaders, and particularly those that YOU voted for. Do they look like Americans who love the country and her constitution? Real Americans better pray that God **does** bless America because He can't bless what it is now.

God helps those who help themselves.... which makes you wonder what form the help will take? ;)

God is a very vindictive and vengeful entity by all accounts, but his skin seems to be far too thick, and he himself is far more patience than is prudent.

Focusing on more temporal entities should done. The politicians who serve us now think they rule us. Adjusting their erroneous attitudes would do much to bless us, and we can do it with, or without, God's assistance.

You're expendable. What will happen next is the other branches will be told to line up. Once the dust has settled from that, they will be sent to the streets to force it on the population.

Remain Calm.

The highest number to which, according to the best computation, a standing army can be carried in any country, does not exceed one hundredth part of the whole number of souls; or one twenty-fifth part of the number able to bear arms. This proportion would not yield, in the United States, an army of more than twenty-five or thirty thousand men. To these would be opposed a militia amounting to near half a million of citizens with arms in their hands, officered by men chosen from among themselves, fighting for their common liberties, and united and conducted by governments possessing their affections and confidence. It may well be doubted, whether a militia thus circumstanced could ever be conquered by such a proportion of regular troops.

— James Madison

“Full FDA approval by September?” !!!!! You know? If people aren't going to GTFO and fight this for their lives, they just simply deserve to die. Because you already know that this is illicit AF but once they claim it to be “approved” the sh*t is going to completely hit the fan. Who is organizing anything, if at all, against this? And organizing against whom, is the question? We need to stop pussyfooting around the issues and get down to it already.

They were claiming there would be full FDA approval by April, then May, then June... all of these claims were made as "reasons" to convince people to get it or affect policy.

The corrupt FDA probably is seeking assurances they won't be the ones thrown under the bus and haven't received them yet.

Right now, with all the vaccine deaths and injuries, if it were ANY other vaccine in any time in history the vaccines would've already been pulled off the shelves.

The only thing that can stop this is (unfortunately) if there are exponentially more deaths and injuries to the point where social media and the MSM can't censor them all.

Otherwise, you can look at this vaccine issue as being leveraged to punish political opponents/manipulate compliance in a

Fewer Americans want to serve in the military. Cue Pentagon panic
